Comments: *'Female killer whale came out of codend during the decksort of Haul* (b) (3) (B) [redacted]*. Lengths, pictures and tissue sample were collected. This orca was freshly dead, noted by the fact it was still warm when taking the specimen sample. No sign of decomposition and body was in good condition, there was no sign it had been killed by anything other than fishing gear. When taking the tissue sample, the muscle was bright red (photographed) and blood was free flowing and bright red as well.'*
