Subject: noaa's response

Hello Ms. Roberts,

Like many people, I assume, I found your contact information on your website. As communications director for NOAA I hope I've landed in the right place. I'm writing tonight to express my deep embarrassment on your behalf regarding NOAA's response to yet another Trump tantrum. What could possibly have provoked that rebuke of the NWS Birmingham statement? They were not wrong. How awful they must feel knowing that their assertion of facts has been undercut because of what? The threat of future funding cuts? I'm sickened if that is the case. The people of Alabama deserve accurate information, do they not? Up until now, NOAA has had a reputation around the country as the trusted source of weather information. How sad for you today.
