**Subject:** Rebuke of Alabama NOAA

Sir:

Your rebuke of the Alabama regional NOAA office is an absolute disgrace.

As a middle school teacher, I count on the science, information and data of NOAA to help my students understand weather, climate and climate change.

For your office to defend our President's *false statements*, *doctored maps*, and *systematic undermining of science-based information* is absolutely appalling.

Stick to reporting the weather and avoid politics. Even seventh graders can see through the hypocrisy.

Sincerely,  
Donald H. Taylor III
