Hi Russ,

I hope you are doing well and enjoying access to your Federal peers who were furloughed. I understand you folks were quite busy over the past month and that the BA was well received by Interior. We are getting our internal team re-assembled and dusting off our strategy and plan to start reviewing and drafting the BiOp. Do you have any time today after 3:30 or tomorrow morning to check in and talk about coordination points as we move through the BiOp drafting? My initial thoughts are that our team is going to need a couple of weeks to thoroughly read through the BA, and that after we get our heads wrapped around it, we should get together and to go over questions and comments. Perhaps we could start off with your team walking us through the BA and then follow that up with NMFS questions.

Also, I think you should have my cell: [REDACTED]

Howard
