Subject: Re: DOI Shasta Markup with Triage

Maria/Cathy/Howard/Garwin,

I'm not sure who is doing final edits for the peer review documents, but can you please delete section 2.5.2.5.3.2 "LSNFH Broodstock Production" from the effects analysis for Shasta.

And to make sure everyone who is doing final document prep knows - We are no longer including the Integration and Synthesis sections in the documents going to peer review. This is unfortunate given all the work that has went into these sections.

Thank you,

Barry

Here's DOI's latest markup of Shasta with my comments on their proposed changes. I have a webex setup but now you have it in case there are any connection issues.
