Subject: A few additional comments on the Delta section of the Perf Objectives doc

(Note that I didn't include Barry on this - please forward if appropriate)

Maria et al. -- Subject doc attached and saved in: CVP ROCON\Performance metrics.

REVIEWED ONLY DELTA SECTION: I think your edits are good - the only revisions I suggest are on p. 4 in the action responses to the interim loss thresholds. I have also offered some comments throughout the Delta section to keep in mind during the Directors discussion -- most relate to the populations for which loss should be tracked (should probably be discussed by the Directors) and the data period used (could quickly be discussed by the directors then punted to the technical folks to adjust the calculated loss thresholds accordingly).
