250013	Oceans	OAR OER Science Suport Services	NOAA Ocean Exploration (OER), an office within OAR, has a recurring support services need for headquarter programs and field missions. OER has experienced and will continue to experience changes which result in increased demands for various levels of support services. These changes are a result of changing government priorities, reorganizations, special programs, and emergencies. As a result of these increased demands, OER requires the use of contractor support services to meet the NOAA mission. OER is the only office that plans, finances, manages and supports scientific expeditions and exploration of the deep ocean and the Great Lakes. OER collaborates with OAR Laboratories, other agencies, cooperative institutes, universities and colleges, and various corporate and non-profit ocean partners to further scientific foundations, evolve theory, and findings of fact. Objectives of this effort will be to; A.Support each respective OER Division in the area of expertise; B.Provide timely delivery of products and services. C.Perform analyses, identify issues and recommend possible solutions, and D.Document accomplishments.	1st Quarter FY 2027	Yes	No	None			N/A	Please contact kathryn.pridgen@noaa.gov for draft PWS information
00335	Oceans	OAR NOPP USNIC Scientific Support	The objective of this acquisition is to provide scientific support services to the USNIC which will include imagery acquisition and analyses of meteorological and oceanographic data to support the execution of the USNIC mission. These analyses are required in order to provide daily operational global and tactical scale ice and snow products, ice forecasting, and other environmental intelligence services for the United States government critical for maritime safety operations.	4th Quarter FY 2027	No	No	Integrated Systems Solutions, Inc.
