00317	Oceans	NOAA OCFO PRSSO FAC120 A and B Course Development Support	The NOAA Office of Performance, Risk and Social Science (PRSSO) has an opportunity to enhance the existing training option for FPM 120 A&B, which serve as the prerequisite courses for FAC-P/PM Entry Level. PRSSO contributes toward enhancing NOAA's overall program and project management culture, with a goal of certifying more employees in FAC-P/PM. This is in direct response to the Program Management Improvement Accountability Act (PMIAA) law of 2016, and the Commerce Acquisition Manual (CAM) which provides guidelines for P/PMs who are required to be certified at specific levels of FAC-P/PM. Currently, to qualify for the FAC-P/PM Entry Level course, there are 40 hours of computer-based prerequisite training (CBT) that must be completed. The CBT is offered through the Federal Acquisition Institute and uses primarily DOD related examples to guide the lessons.	Set-aside	No	HubZone	Firm Fixed Price	1305M424F0142	Lynker Corporation, LLC	HUBZone	\$216,887.44		7/31/2024
00287	Oceans	NMFS NWFS Lower Trophic Level Indicator Support	The NWFS has a need for technical and engineering support services to assist with the collection and processing of IFCB and eDNA samples, develop and manage IFCB and eDNA data pipelines and databases, and assist with IFCB operations and maintenance. This is a labor-hour non-personal service task order. Government personnel will be responsible for the overall scheduling of project activity and will provide the Contractor's liaison / project manager with scheduling information as appropriate.	Set-aside	Yes	Small Business	Firm Fixed Price	1305M324F0264	Lynker Corporation, LLC	HUBZone	\$1,862,911.20		7/30/2024
241745	Oceans	NMFS PIFSC Director's Office and Fisheries Research and Monitoring Division Support Services	The Pacific Islands Fisheries Science Center (PIFSC) is part of the National Oceanic and Atmospheric Administration (NOAA), National Marine Fisheries Service (NMFS), headquartered in Honolulu, Hawaii. The PIFSC has taken a leading role in marine research on ecosystems, both in the insular and pelagic environments. As part of this work, PIFSC has been implementing a multidisciplinary research strategy including an ecosystem observation system, and scientific analysis to support ecosystem approaches to management and restoration of living marine resources. It conducts a wide range of activities including resource surveys and stock assessments, fishery monitoring, economic and sociological studies, oceanographic research and monitoring, critical habitat evaluation, life history and ecology studies, and advanced oceanographic and ecosystem modeling and simulations. The PIFSC's Director's Office (DO) has a requirement for technical/scientific editing services, librarian/archivist services, and graphic design/communications support. The Fisheries Research Monitoring Division (FRMD) has a requirement for mechatronics engineering services. 00212	Oceans	National Ocean Service (NOS) Risk Reduction and Preparedness Strategy and Coordination	NOAA requires the services of a company with extensive experience in risk reduction, including all aspects of preparedness, public safety, resilience, climate adaptation, and science and technology policy, to facilitate and support NOAA's participation in intra-agency, interagency, academic, public-private, and intergovernmental activities. These responsibilities include NOAA's Senior Advisor for Coastal Inundation and Resilience serving in two concurrent leadership roles within the White House Office of Science and Technology Policy subcommittee framework.	Set-aside	Yes	HubZone	Firm Fixed Price	1305M224F0091	Lynker Corporation, LLC	HUBZone	\$1,760,041.00		2/28/2024
00269	Oceans	OR&R Business & Scientific Support Services (BSSS)	OR&R seeks to obtain the necessary business, scientific, IT and any other administrative-type support services for all of its Division deemed necessary to support OR&R's mission. The contractor shall plan, administer, coordinate, and execute the work necessary to provide the specified services. The contractor shall provide all qualified personnel, and other items not Government-furnished, necessary as defined in this Performance Work Statement (PWS). Services include business support of NOAA functions (prevention and preparedness, protection and response, restoration, research and recommendations, marine debris program, disaster preparedness, and the business infrastructure to support all these activities). This requirement will require field work and supporting field work. Site visits regularly require more hours than expected due to unforeseen conditions because work is based on environmental incidents and cases that are unpredictable. This requirement needs resources and includes value assessments and visits to impacted areas. The contractor shall plan, coordinate, manage and execute the work necessary to provide services to support the specific tasks.	Set-aside	Yes	Small Business	Hybrid FFP and T&M	1305M224F0009	Research Planning, Inc. WOSB		\$21,646,836.75		12/20/2023
00250	Oceans	Office of Communications Public Relations Support Services	The contractor will provide public relations and agency brand awareness services in media relations and other outreach to support the planning, development, and implementation of public relations support services required by NOAA. NOAA requires services to assist in the development and dissemination of information to inform and educate key audiences through comprehensive communications programs and methods that engage the media and stakeholders and to reach affected communities, partners, and employees	Set-aside	Yes	Small Business	Firm Fixed Price	1305M423FNAAJ0151	Ocean Associates, Incorporated	WOSB	\$308,412.00		9/21/2023

00240	Oceans	OCM BIL/Service Delivery Partner Network Analyses for the Coastal Resilience to Inundation Community of Practice (CRI CoP)	The purpose of this work is to perform a series of partner network analyses, related to the Infrastructure Investment and Job Act/Bipartisan Infrastructure Law; Flood and Inundation Mapping and Forecasting, Water Modeling, and Precipitation Studies Provision 3. There are two primary tasks associated with this statement of work: 1. Perform an external partner network analysis to provide baseline information on the establishment of the Coastal Resilience to Inundation Community of Practice (CRI CoP). 2. Perform internal partner network analyses to help understand the partner structure centered around NOAA-developed inundation products at the subseasonal to annual (SA) timescale. The findings from this work will be used by NOAA to examine the linkages and relationships that both exist, and those that are absent, among and between developers, data and information providers, users, and consumers of information with an overall goal to reduce coastal flooding impacts in the United States.	Set-aside	Yes	WOSB	Firm Fixed Price	1333MG23FNCNP0006	Ocean Associates, Incorporated	WOSB	\$104,214.00		6/28/2023
69338	Oceans	Great Lakes Environmental Sensitivity Index Maps - Lake Michigan for NOAA National Ocean Service's (NOS) Office of Response and Restoration's (OR&R) Emergency Response Division (ERD)	ERD requires the assistance of the contractor to provide support obtaining data and mapping the data for the Great Lakes and coastal ESI updates. The ESI map updates will be completed in collaboration with state, federal, and local agencies, along with other experts from industry and stakeholder groups. It is paramount that this effort coordinate with NOAA and EPA experts in the regions, and that products of these agencies are given priority for inclusion. ESI maps consist of the following data types and content and shall adhere to the 2019 ESI guidelines while leveraging advances in technology to improve the product as agreed to between NOAA and the contractor: Base Map Components (a "hydro" layer, a "hydro line" layer, an "ESI polygon" layer, and an "ESI line" layer), Biological Map Components (BENTHIC, BIRDS, FISH, HABITATS HERPETOFAUNA, INVERTEBRATES, MARINE MAMMALS, and TERRESTRIAL MAMMALS), Human-Use Map Components (feature types - Political/Jurisdictional, Resource Management, Socioeconomic, Parks/Managed Areas, and Navigation/Marine)	Set-aside	Yes	WOSB	Firm Fixed Price	1305M223FNCNR0111	Research Planning, Inc. 67007	Oceans	OCM Comprehensive Ecosystem Services Valuation of U.S. Coral Reefs	The objective of this project is to update the coral reef valuation estimates from the 2001-2011 studies, to the extent possible, and incorporate rigorous and cutting edge valuation approaches and econometric techniques, if and where relevant. This project specifically addresses CRCP's Strategic Plan and Socioeconomics priority to provide updated economic values of U.S. coral reefs. Main project activities in FY21 will focus on project scoping to gather existing economic data and to identify the most appropriate methods for data collection, identify ecosystem services relevant to each jurisdiction, identify data gaps, and delineate a path forward for the remaining project years for services that need updated values. The results will determine the geographic scope and project activities for FY22 and FY23, and set forth a plan (with potential need to extend beyond FY23) to obtain ecosystem service values from all nine (9) coral reef jurisdictions.
