Subject: Re: NPR Media Inquiry

We feel Craig's email speaks for itself and no further elaboration is needed, so no one on air. However, this statement may be of some help. You can attribute it to me. Thanks -Scott

"NOAA's policies on [scientific integrity](#) and [communications](#) are among the strongest in the federal government, and get high marks from third party observers. The agency's senior career leaders are free to express their opinions about matters of agency operations and science. The agency will not be providing further official comment, and will not speculate on internal reviews."

Thank you so much for getting back to me.

Mr. Smullen do you have anyone we could get on the air tomorrow?

Kelli

Thank you, Kelly.

I believe we would have better representatives for what you are requesting. I am copying Mr. Smullen for possible assistance on future interview reps.

Thank you,

CM

Hi Mr. McLean,

I am reaching out from NPR's Morning Edition. We are a daily news program with over 15 million listeners.

We would absolutely love to have you on our air tomorrow morning to talk about the National Weather Association meeting and the public prominence of weather data during Hurricane Dorian.

This would be a ***live*** interview lasting around five minutes at 6:34am EST.

Please let me know if we can make this work.

Kelli Wessinger
