**Subject:** Reuters seeking copy/video of

Good Morning,

I'm a reporter with Reuters.

Can you please send me a copy of the prepared remarks of Neil Jacobs at the National Weather Association meeting in Alabama this morning? Obviously, I'm interested in whether he addressed the recent reporting about whether there was political influence on NOAA or the NWS during the forecasting of the projected path of Hurricane Dorian. If there is a video of Dr. Jacobs' address that includes and Q&A, that would be even better.

If you prefer, please feel free to call me at the number below.

Thanks very much.
