Subject: President Trump's forecast map
To: nhc.public.affairs@noaa.gov <nhc.public.affairs@noaa.gov>

Hello,

My name is Jacob Pramuk and I'm a reporter at CNBC.com. I had a question about the initial forecast map President Trump just held up during a briefing on Hurricane Dorian (a screenshot is attached).

The path of the storm is outlined in white, but there's a black circle that extends farther west over Alabama. Was that black circle in the original forecast made by the government?

Thank you,

Jacob
