Hi- that reporter also contacted Gina yesterday and she looped in Monica Allen (NOAA Comms @ OAR). They are working up responses. Although the questions below may be a bit different. I'll connect with Monica.

Thanks...
-Chris

Chris/Susan,

How are we handling media inquiries?

Vankita, Danielle and Jen may be better for this.

Jen

Hi Jennifer,

I'm a reporter at the Wall Street Journal and have been covering Hurricane Dorian for the past week. I'm now working on a piece about advances in hurricane forecasting and how those impact emergency planners and residents in affected zones. One of the questions I'm interested in is how NOAA tries to communicate these forecasting advances, and the storm risks entailed, effectively to the public. I saw that you're the social science program manager for NOAA, so I was hoping to get a little more info on how NOAA is incorporating the social sciences into all this. Do you have a little time to chat this afternoon? Thanks so much,

Arian
