Please stop lying for Trump.

I was asked to take a survey for [Weather.gov](http://Weather.gov). I discarded the survey after thinking about how [Weather.gov](http://Weather.gov) had just the day before, lied for the lying President of the United States of America. How can we feel good about your function to our society when your people openly falsified information to back the lie that Trump had started, to cover up a stupid mistake that he had made. How can the people that have come to rely on NOAA NWS for life saving information, continue to trust your information, when the organization has brazenly lied for this man? The money and resources that move on the weather information provided by NOAA NWS is astronomical and can now be manipulated by that man thanks to your agency!

Please, stop lying for Trump.

Bob Adams
