Mary: just waking up from a nap. Has anyone looked at the 12z HWRF? It has a landfalling hurricane in Florida that then moves to north central Florida into southern GA. The model run does not produce any precip in AL but it is not that far away. Maybe someone in WH showed him that? Look I am not buying the HWRF prediction as it continues to be an outlier but [REDACTED]

God only knows what would happen if AL gets a drop of rain out of this storm. Louis

FYI - see article from Washington Examiner from this afternoon. Puts

POTUS impact claims against the official forecast and now one WFO is refuting POTUS comments. Just want you to be aware. Need to keep our folks safe and out of the fray.
