Francis-

Unfortunately, I haven't been involved in the WH briefings on Dorian, as these are being handled by Julie Roberts, the Deputy CoS. [REDACTED]

(b)(6)

I am now reading the news about the POTUS tweet regarding Alabama. All inquiries to NOAA are being directed to the WH. Again, I'm not involved in this communications strategy.

As clearly seen in the briefing deck below from Aug. 30, there was the expectation that Dorian would impact Alabama. See slides 4, 7, 8, and 9. I don't know precisely what was briefed to POTUS, but would expect that impacts to Alabama would have come up during the numerous conversations. [REDACTED]

(b)(5)

Stu

Please see attached for today's Senior Leadership Brief. Thank you all for your support, interest and information!

There will be a 1800 SITREP this evening and another SLB tomorrow at 1130 with the same call in number.

Thanks, CAPT Lynch
