My understanding is you are the general counsel for NOAA and made the statement of “dissing” the NWS response to Mr Trump’s inclusion of AL in the Dorian forecast.

There is no place for politics in regards to weather and in particular climate change. I am ashamed and horrified at your comment. Whatever pressure was applied, you should not have buckled. Better to resign and set up a go fund me page if necessary. You have no honor, no integrity and certainly no guts.

Mr Trump (he does not deserve the president title) is an idiot and functionally insane. He bullies his way thru the world and apparently ran all over you.

I have used the NOAA and NWS website for years as a cotton analyst working in the commodity world. Your information was beyond reproach but I can no longer trust anything on your website as you have tainted it.
