Hi Sarah,

I'm looking for comment from the NHC in regards to this video just posted on social media by The White House:

<https://twitter.com/i/status/1169300628000124929>

In the video -- it appears that someone altered the NHC's old forecast path on Dorian -- by adding a second black bubble that extended into Alabama.

I'd like comment from the NHC on this, please.

Thank you.
