Subject: Dorian

Dear Mr. Feltgen,

This evening I have written emails and called various NOAA offices as I am absolutely horrified about the news of NOAA caving to reporting that Dorian should have indeed been considered a threat to Alabama. What a shame and a sham for your agency to bow to Donald Trump's ego and political pettiness. As a science teacher, school principal and longtime resident of southeast Florida I used to respect and trust information from NOAA. That will no longer be the case. I am still shocked about this scenario. It is even more despicable as we see the devastation in the Bahamas with absolutely no messages of sympathy or concern from Donald Trump. Beyond belief.

Shame on NOAA!

Kristen Hughes
