Subject: Political weather

Dear Mr. McLean,

According to the newspaper, you say you will investigate who gave the announcement that once again let Trump off the hook. The weather should not be politicized. Please find this person and appropriately discipline him or her.

I use NOAA for my main weather reports. I need to trust that there is real science behind you.

If we hear no further news in this from NOAA, I will assume that you caved, too, and I will be deleting NOAA from my phone and my esteem.

Sincerely,
Ann Myers
Scottsdale, Arizona
