**Subject:** toadying to the president

Dear Julie,

remember your oath of office? I remember mine when I joined NOAA. It doesn't say anything about toadying to the president and endangering people because he made a stupid error in a tweet. People could have been injured or killed because of that tweet. So, be best- serve the people you swore an oath to serve and stop befouling the name of a fine agency full of fabulous, hardworking people.

Thank you,

Heather Stout
