Subject: Alabama Hurricane Dorian "warning"/Rebuke of Birmingham National Service

You, sir, are a disgrace. You have caved to a deranged bully. You have broken faith with the American people. How can anybody ever place any trust in any communication coming from NOAA again? And you just threw the Birmingham National Weather Service under the bus to please a deranged maniac. Please do grow a spine and stop being a shoddy, cowardly bureaucrat..

In the meantime, I don't know what I should do next time a hurricane looks like it's menacing Florida. How can I trust anything your organization says? It's difficult enough to know whether to stay or evacuate when you think you can trust the information you're getting. When you have no faith in what was the ultimate authority, what do you do? Stay and take your chances, I guess.
