Subject: Alabama

Dear Dr. Jacobs:

I sincerely hope that you did not issue that false statement to back up Trump's false statement about Alabama hurricane weather.

Whoever issued that statement erodes our faith in NOAA and the American way of life, which depends on truth and honesty in its government offices.

Anyone can see that Trump's statement has been proven to be untrue by the factual timelines presented on both the weather forecasts and Trump's statements.. His statements are therefore "fake news" and are based on old information.

Please issue a corrected statement that represents NOAA and not someone's partisan opinion or desire to please Trump.

Thank you.

Most sincerely,
Janell Ross
