Subject: Hurricane Dorian/ False forecast statement by the President

Dr. Jacobs,

First, my regards for your Outer Banks and the safety of the residents. Second, your agency does an awesome job forecasting weather and trying to get people out of harms way.

But, your supporting the President on his false forecast into Alabama is the most cowardly act I can imagine from an agency that prides itself on integrity and sense of mission. You let down your staff, employees and Country. All you had to do was stay quiet ...Or you could have done the right thing and rebuke his false statement. I hope your kids weren't watching.
