Dear Acting Director Jacobs,

I am writing to you from a hurricane-prone region of the U.S. to protest and condemn the moral cowardice of you and your agency.

You have managed to take a trusted agency that Americans rely upon for accurate and reliable information regarding hurricanes, and now you have politicized it, turning into yet another kow-towing sham, nothing more than a state-controlled organ of propaganda, covering up for Donald Trump's malignant narcissism and megalomania.

Shame on you sir. Shame on your moral cowardice in buckling to the political pressure of a dementia-addled sociopath that calls himself "President".

How do you sleep at night, knowing that you're aiding and abetting a 3rd-rate con artist?

I cannot believe how far we have fallen as a nation, and you sir have just contributed to that fall.

With utter disgust,  
Joe Maxwell
