Subject: Recent press release regarding Birmingham NWS

To NOAA administration,

I find it absolutely despicable what NOAA did when it publicly rebuked the NWS for doing its job. You have "politicized the weather report" and the public will lose confidence in the ability of NOAA and NWS to do their jobs.

This comes on top of many other signs that the current president is eroding the role of science in our government.

I am disgusted.

Time to take a Sharpie to all of NOAA!
