Subject: Hurricane Dorian

I wish to make a comment regarding statements and actions of upper level management in NOAA as hurricane Dorian approached the USA. Apparently (https://www.washingtonpost.com/politics/noaa-staff-warned-in-sept-1-directive-against-contradicting-trump/2019/09/07/12a52d1a-d18f-11e9-87fa-8501a456c003_story.html) NOAA scientists were told by NOAA management that they should not comment on or contradict any statements made by the President regarding the hurricane even if the President tweeted or spoke inaccurately.

Please remember that although you serve "at the pleasure" of the President, you and all NOAA and all government personnel serve the people of the country.
