Subject: Thank you for sticking up for our president regarding Hurricane Dorian's potential impact on Alabama!

The Honorable Neil Jacobs
Acting Director
National Oceanic and Atmospheric Administration
1401 Constitution Avenue NW, Room 5128
Washington, DC 20230

(via email)

September 9, 2019

Dear Dr. Jacobs,

I'm writing to THANK YOU for supporting President Donald Trump's assertion that the state of Alabama was directly in the path of Hurricane Dorian. THANK YOU also for commanding every employee in the National Oceanic and Air Administration to do the same. I hope you're able to root out and fire the churlish worker in the National Weather Service who issued an official tweet contradicting President Trump.

Your timely putdown of the NWS has helped protect the president from shame and embarrassment by lying socialists in the media who have attempted to portray him as obsessive, stupid, petty and craven. It also sets a great example for other agencies in the vast federal bureaucracy. Those workers also should be directed to agree with whatever President Trump says!

As you might suspect, I'm one of his proudest supporters. The President is the most amazing leader the United States of America has ever had. He's smart, handsome, virile and inspiring. His family is very attractive, too. You can't say that for the White House's previous occupants. Who could feel pride in America when we were being led by a Kenyan and his ugly brood?

President Trump has eliminated illegal immigration, made Mexico pay for The Wall, brought the thieving Chinese to their knees with astute tariffs and persuaded North Korea to abandon its nuclear weapons and missile programs. Thanks to him, we're once again the most respected country on Earth.

And now, under his leadership, our government has politicized the weather. It's well past time for that. We've politicized everything else – even light bulbs. Why should weather be immune?

So congratulations, sir. You're helping to Make America Great Again!

Sincerely,

Arthur Mofodopoulos
