Subject: Recent Statement to Employess

Dear Mr. Jacobs,

The American people rely on the National Oceanic and Atmospheric Administration to have the strictest standards of professional conduct.

By sending out a statement to NOAA employees requiring them to support President Trump's erroneous characterization of the hurricane threat to Alabama over the scientific facts of the situation, you have endangered the safety of our citizens and soiled the reputation of the NOAA.

We can no longer trust you to perform your duties with the welfare of the people in mind. If you have any integrity or sense of principle, you will resign immediately.

Sincerely,
A very concerned citizen
