Subject: Politics and weather

Ear D. Jacobs,

Politics has no place interfering in storm or weather forecasting.
If the stories are true you must make a statement apologizing for your behavior
to your employees and the public. If your fired, your fired. Right is right. Wrong is wrong.
What Trump, Wilbur Ross did was wrong. Your bending tp political pressure was wrong.
All of your actions should be in the best interest of the public, period.

Respectfully,
Pat Golden
