Subject: Integrity

Dr. Neil Jacobs

Assistant Secretary of Commerce for Environmental Observation and Prediction, performing the duties of Under Secretary of Commerce for Oceans and Atmosphere

If the President asked you to shoot your wife/partner, would you? Well, you have shot the integrity of your important scientific bureau. The President is not more important than the country. You have sided with the President. Please, resign and restore integrity to the NOAA.

Shocked and disgusted,

John Carter

primarily Toronto, Canada, but a voting U.S. citizen of Broward County Florida
