Go to Hell, you lying son of a bitch! I don't give a shit what Wilbur Ross said you could or couldn't say, as it pertains to the president of the United State LYING TO THE AMERICAN PEOPLE ABOUT SOMETHING AS FATAL AS THE PATH OF A HURRICANE. I will never believe another god damned word out of the mouth of NOAA, how do I know if Trump hasn't told you to lie again? You are a disgrace, and anything short of a full throated rebuke of the "fake" weather map doctored BY TRUMP HIMSELF makes you a fucking coward and a damned liar! Don't you think we've have enough of that? Do you think the American people deserve better from NOAA? Bet you don't believe in climate change either, oh wait, "climate change:" one the phrases Trump outlawed early on! Newsflash asshole, THIS IS A DEMOCRACY, NOT A GOD DAMNED DICTOATORSHIP! DO YOUR FUCKING JOB, THAT I PAY YOU TO DO!
