Subject: NMFS Proposed CVP Ops BA coordination schedule
Attachments: NMFS proposed timeline for ROC on LTO BA coordination.docx

All -
While recognizing that development of the BA is clearly a Reclamation lead, we are also under pressure to be ready with schedules, per President's memo. With the expedited timelines in mind, Howard Brown, who is my lead on this, developed this proposed schedule for having some coordination on the BA prior to Jan 31st. We are also working to put together a schedule with milestones for the Biop by June 15th, and assessing our resource needs. I hope this is helpful and I am looking forward to seeing your schedule, whenever you have something you can share.
