Subject: re-scoped Shasta reintroduction pilot program

Michelle and Carl,

I hope by now you've been belatedly invited to ROC meetings this week. I want you to have a write up we have shared with Reclamation on winter-run reintroduction (attached). We've scaled this back considerably, and it is now a 10 year pilot program at 2.7 M per year I am hoping that there may be some way for DWR/DFW to pick up this component, as we are stuck with Reclamation due to DC reasons, and it is critical to successful conclusion of this consultation. Maybe we can have a side conversation about this tomorrow, and see if there is a way to give DWR "credit."

FYI, Barry raised this with Wade today at a meet and greet.

Thanks,

- Maria

Norma,

I will need some help in am compiling four sets of materials for the meeting with Wade. Can you pull West Coast Region orgs charts off computer? I also need the winter run species in spotlight brochure, and Jon Ambrose's latest winterun pilot study proposal. Please place four sets in nice new folders. Come see me if you need help. Thanks!

- Maria
