Maria/Howard,

Paul put a 9:30 o the calendar tomorrow to talk schedule. I think his main issue is working out sharing of docs next week ahead of the 24th.

Let me know if we need to co opt the winter run discussion to talk schedule.

Thanks,

Barry

John, Chris, Deanna, Lori, Cheryll,

Attached are the draft Integration and Synthesis sections of the NMFS Draft Effects Analysis. These sections are, perhaps, the most important part of our analysis because this is where the aggregate analysis occurs where we add the status, baseline, effects to individuals and cumulative effects to inform our conclusion. We request your input and comments.

Howard
