Garwin -- Forwarding the tables that Brittany put together; wanted to confirm what I believe you told me earlier, that is, we should start with Option 1 (all possible columns) and worry about page logistics later.

Hi Barb,

When you have a chance take a look at these tables and let me know if I am on the right track with what you were thinking. I populated them with a couple rows from the Clear Creek I&S table to give an idea of what they would look like.

Thanks,
Brittany
