Hi Naseem,

For ROCON I am helping address comments in the Effects Section for the American Division. One line in this section states:

"These measures are considered part of the Environmental Baseline and are not analyzed here as effects of the PA"

Garwin commented on this that you have verbiage for talking about the baseline and "explaining the previous section 7 consultation."

Do you have a section of text that should be used here?

Thank you,
Brittany
