Subject: RE: Steelhead Return Data

Hi Brittany,

I was also just reminded that all historical trap counts in excel format is posted on our website (<https://www.wildlife.ca.gov/fishing/hatcheries>). There is a link on the right titled "Historical Anadromous Fish Trap Counts at CDFW Hatcheries (Excel)".

Thank you,
Duane

Duane and Anna,

Thank you both so much for getting me this data.

Best,
Brittany

Duane,

Here is the document stating all of the SH returns you requested. I have cc'd Brittany on this email.

Subject: FW: Steelhead Return Data

Good morning Anna,

I am reaching out to you in hopes that you can assist with this data request from Brittany Cunningham, an affiliate with NOAA (see her email below). She is requesting data on steelhead returns to the Feather River Hatchery for years 2015-2017. She currently works out of the NMFS CVO office and is updating figures on steelhead hatchery returns. I was initially contacted because I generally provide CDFW hatchery data on our weekly Delta Operations for Salmonids and Sturgeon (DOSS).

Please let me know if I can facilitate this data transfer or if you will allow me to pass on your contact information and work with her directly.

Thank you,

Duane

Subject: Steelhead Return Data

Hello,

I work out of the NMFS California Central Valley office and am currently updating figures on steelhead hatchery returns.

Kristin Begun (previously Kristin McCleery) recommended to me that one of you may be able to provide me with data on **steelhead returns to Feather River Fish Hatchery** and **steelhead returns to Coleman National Fish Hatchery**. Currently I have data that spans 1988-2014 for both and I am looking for numbers from 2015, '16, and '17.

Please let me know if there is someone else I should contact for help locating this information.

Thank you for your help,

Brittany
