Subject: Re: RPA section in EnvB

thanks,

But, although this was a good exercise, I'm actually not sure any of these will apply... for the RPA actions in general we are lumping them in the EnvB, this section is only specifically talking about RPA "restoration actions"

Do you see any of them as that?

Naseem, here is my shot at the Clear Creek RPA and baseline. It's not in track changes but a stand alone, I wasn't quite sure where each should fit based on the portion you set me. Most of my update information (with some exact verbiage) came from the Clear Creek RPA annual reports. I did not cite here but can if needed.

here is all that is in right now.
Nothing about CC!
let me know if you are able to write up a similar paragraph for it (what was the requirement, and what has occurred to date - and maybe what is no longer proposed).
