Subject: can you please re-send ...

Eric and Miles, Brian and I are looking for your modeled output of TDM and total mortality that we can incorporate into the winter-run integration and synthesis. I know you have this information in a hindcast format but I thought you also predicted total mortality along with TDM for each tier? We have the TDM but need to put it in the context of TM.

Sorry, we probably have this someplace but everyone is scrambling and Evan is on leave.
- Maria
