Subject: Re: SWIFT RESPONSE REQUESTED: Peer Review Focus

For the Clear Creek Division, I am not sure I would want only a specific section targeted but it seems important to know :

"Are there significant risks or benefits that have been overlooked?, and

"Are proposed flows and temperatures appropriate for the species?"

Hey Division Leads -

I have a short turn-around request. Dave Hankin is one of our reviewers and is struggling a bit with the volume of info we have submitted.

I'd like to provide him with a targeted list of where it would be most beneficial for him to review. ***Please offer any revisions to this initial draft list.*** If you'd like to have the context, take a look at the panel charge (attached).

Section 2.1 Analytical Approach (read not so much to review that we are right but more to understand our approach and provide basis for answering the review questions).

Section 2.5.2. Upper Sacramento/Shasta, specifically:

- Section 2.5.2.3.1.1, especially Section 2.5.2.3.3.1.1 subsection for Winter-Run Chinook Salmon
- Section 2.5.2.3.3, especially Section 2.5.2.3.3.2 Summer Cold Water Pool Management and subsection for winter-run Chinook salmon 2.5.2.3.3.2.1 Winter-Run Chinook Salmon

Section 2.5.5 Bay-Delta Division

Barb to provide some specifics

Anything else, if we are being targeted and prioritizing?

Thanks,

Cathy
