Subject: First (limited) look at Shasta
Attachments: 2019-03-15_Shasta_effects.docx

Hi Cathy,

It's early and pretty rough but attached is my start on the Shasta effects section. It only includes: seasonal operations>winter operations>winter - spring minimum flows.

This is really just an example of how I plan to go about doing this, as there is some additional information that could/will be added (WRLCM habitat capacity, "response" categories, additional support, etc.). Also the the highlighted text is lifted straight from the BA PA description and when/if there's time I plan to revise it.

Evan
