Subject: Clarification of consultation status of Shasta Dam Raise and Fall X2

I want to understand how the current proposals for "Operation of a Shasta Dam Raise" and "Fall X2" fit into the PA, in terms of the categories of Table 4-6. Am cc'ing the relevant Division leads as an FYI.

Specifically:

Operation of a Shasta Dam Raise

- As currently proposed, is the "Operation of a Shasta Dam Raise" a Site Specific or Programmatic action?
- Is it considered Core Operation or AM?
- *Was considered Site-specific/Core in the Feb 2019 BA -- see p. 4-21 of the BA.*

Fall X2

- As currently proposed, is the "Fall X2" a Site Specific or Programmatic action?
- Is it considered Core Operation or AM?
- *Katrina's e-mail said that Fall X2 "would replace the existing Suisun Marsh Salinity Control Gate and Fall Delta Smelt Habitat conservation measure text in the BA."*
- *The Suisun Marsh Salinity Control Gate was considered Site-specific/Core in the Feb 2019 BA -- see p. 4-23 of the BA.*
- *Fall Delta Smelt Habitat was considered Site-specific/AM in the Feb 2019 BA -- see p. 4-23 of the BA.*

Thanks,

Barb
