Hi Cathy, Garwin,

Attached is my draft section on the February forecast and spring base flows discussion for the Upper Sacramento/Shasta Division. Just sending the sub-section rather than sending whole document so as to avoid version control issues.

Maria had provided some suggested additions for this section that in my mind didn't really fit, (rule of thumb chart, science center modeling, and previous drought administrative record) so I plan to insert them either earlier (in the year-round discussion) or later (in the summer cold water pool management discussion).

Evan
