Subject: Re: ROC LTO - Spring-run tables

Brian et al; Confirming that the Stanislaus and San Joaquin I&S tables attached to Brian's e-mail are the latest and greatest, including elements from both my and Kristin's analyses. No changes needed.

Hi Norma,

Please combine the attached spring-run tables into one table in a standalone MS word document? The top to bottom order should be Shasta, Trinity, Delta, Stanislaus, San Joaquin.

Division Leads,

Please make sure any revisions you already made, but are not reflected in the attached versions, or plan to make later on get incorporated into the combined table which will be in the I&S draft. Let me know if you have revisions to make.

(fyi, all the tables are saved here: R:\Draft BiOp\2_ESA\2.8-2.9 Integration and Synthesis and Conclusion\Spring-run Tables)

Thanks,
Brian
