Hey Evan --

I think that these look good. Let's try to stick to these points and it will flow pretty well. I may chime in at times in support but don't have major substance to add. Do you want to work out a signal for backup?!?

I just sent the revised slides to the group. Not much changed -- I moved the SWFSC figure and the tiers figure (I call the "I dunno" figure) to the same slide, then followed that by the contracts figure. I think that the flow will still work with what you have in your notes, just with these shifts.

I'll be on the train 7:30-8:30 but happy to talk through these if you want to do a 5-10 min run through during that time. Lemme know!
