**Attachments:** StoragePlot.jpg

Evan,

I am not clear on what data are represented in the spreadsheet. Using the "EOA storage" field from the "mortalities" tab, there are 7 consecutive years of Tier 3 or higher, and more importantly, 4 straight years of Tier 4. See the attached figure (not as nice as Miles', but get the point across).

Eric

Hi Eric,

Thanks for the figure. Attached is a workbook that I used to draft the potential performance metrics.

Evan and Cathy,

Here is a plot that Miles came up with. We can discuss next week.

Eric
