**Subject:** Green sturgeon I&S

Hi Rosalie and Brian,

I saved the GS I&S in CVP ROCON as-

2.8 Integration and Synthesis HEUBLEIN GS V3.rd

I reordered the tables and deleted rows that were NA and uncertain in track changes but haven't gotten to a narrative description of uncertain effect components. It may be sufficient for division leads to include uncertain effect components in the effects sections. Through these reviews I've accepted some of the deletions and lost some comments but tried to keep all the comments and track change sections that still had outstanding issues.

Thanks

Joe
