It was nice to see you too. Brought back memories of fun times on the 8th floor.

Here's the GS draft.

Hi Brian, given you are two hours ahead may I please trouble you to send me Joe's draft via email— I'm hoping to get an early start on it first thing tomorrow and Joe didn't respond to my request (and I don't know his hours).  
Thanks for the favor!!!  
Btw: great to see you today!  
Rosalie

Hi Joe, May I ask you to email the revision? Thanks and looking forward to reading it!  
Rosalie

Hi Rosalie and Brian,

I saved the GS I&S in CVP ROCON as-

2.8 Integration and Synthesis HEUBLEIN GS V3.rd

I reordered the tables and deleted rows that were NA and uncertain in track changes but haven't gotten to a narrative description of uncertain effect components. It may be sufficient for division leads to include uncertain effect components in the effects sections. Through these reviews I've accepted some of the deletions and lost some comments but tried to keep all the comments and track change sections that still had outstanding issues.

Thanks

Joe
