RST's modified to half cone configuration. CPUE not comparable to full cone configuration due to reduct
Full cone operation.
632 VIE marked FRCS released @ 10:30 AM 1 mi up-river.

476 VIE-marked FRCS were released 1 mi up-river.

Trap 8.3 taken out of service for repairs.

Clicker malfunctioned on trap 8.4. Total cone revs should be higher. Trap 8.3 returned to full cone oper:

489 VIE-marked FRCS were released at 11:15 1 mi up-river.

Clicker on trap 8.3 inoperative, no replacement available.

Clicker on trap 8.3 inoperative.

Clicker on trap 8.3 reinstalled.

Trapping suspended for both traps due to high debris loads.

Full cone configuration.

488 VIE-marked (orange) FRCS were released 1 mi up-river @ 13:45.

470 VIE-marked (purple) FRCS were released 1 mi up-river @ 10:20.

516 VIE-marked (orange) FRCS were released 1 mi up-river @ 9:48. Two VIE-orange recaptures.
3 VIE-orange recaptured.

One orange VIE-marked fish recaptured.

473 VIE-marked (pink) FRCS were released 1 mi up-river @ 9:48.

82 BBY-stained FRCS were released 1 mi up-river @ 12:00.

65 BBY-stained FRCS were released 1 mi up-river @ 10:10.

151 BBY-stained FRCS were released 1 mi up-river @ 10:10.

121 BBY-stained FRCS were released 1 mi up-river @ 9:20.

Cones raised at 0915 on June 1, trapping suspended due to high river temps

Cones lowered at 1430 on 6/13/2016

Due to equipment issues, only fishing one trap

Due to equipment issues, only fishing one trap

Due to equipment issues, only fishing one trap

Due to equipment issues, only fishing one trap

Due to equipment issues, only fishing one trap

Trap cones raised at 1000 on June 20 due to increasing water temps. End of monitoring season
