Subject: Re: Midwater Trawl at Chipps

- You can query data from various monitoring sites, including Knights Landing, at SacPAS -- see, e.g. http://www.cbr.washington.edu/sacramento/tmp/hrt_1556814644_829.html
- Annual spreadsheets for KL for the past three years are here: <https://www.calfish.org/ProgramsData/ConservationandManagement/CentralValleyMonitoring/SacramentoValleyTributaryMonitoring/MiddleSacramentoRiverSalmonandSteelheadMonitoring.aspx>
- Have attached 2006 - 2015 spreadsheets (not necessarily official)
- note that KL sampling didn't occur in winter/spring 2013, and in other years were occasional shutdowns.
- Kristin is a whiz at Delta data -- if you need some graphs generated, she may be (with Garwin's okay!) able to help out in the next few days.
- **Kristin** -- if you have any cleaner/combined KL data, please share with Rosalie.

I am noticing the species distribution in environmental baseline needs updated citations and evaluation of updated monitoring data, so doing a quick check.

Here's a quick graph of relative monthly abundance of winter run sized fish at Chipps over last 8 years: (x axis is months, y is counts)

- DJFMP data, including Chipps, available at: https://www.fws.gov/lodi/juvenile_fish_monitoring_program/jfmp_index.htm; current 2012-2019 spreadsheet posted on that website (uploaded 4/17/19) is attached.
- You can query data from various monitoring sites, including Chipps, at SacPAS -- see, e.g. http://www.cbr.washington.edu/sacramento/tmp/hrt_1556752562_269.html
- Hottest off the press DJFMP data, including Chipps, available at: <https://dev.baydeltalive.com/fisheries/djfmp-highlights> -- use the "DJFMP catch snapshot" query tool at the bottom of the page; enter "Chipps CHN Winter" in the search box to see only WR catch at Chipps in your specified date range.

Hi Jeff and Barb,

Do you have recent MWT data at Chipps Island you can share with me? Looking specifically for winter run sized fish. I'm okay if you just send me the spreadsheets.

Thanks!

Rosalie
